CONTENTS TO VOLUME 60

Vol. 60 No. 1 January 1993

O. NATH, S.N. OJHA, and H.S. TAKHAR / Strong Spherical Shock Wave Propagation in a Self-Gravitating RMHD Rotating Interplanetary Medium 1

T. TAKASHIMA and K. MASUDA / A New Method for Simulation of Atmospheric Effect on the Emergent Radiation over Non-Uniform Terrain 11

J. KLAČKA / Interplanetary Dust Particles: Disintegration and Orbital Motion 17

J. KLAČKA and M. SANIGA / Interplanetary Dust Particles and Solar Wind 23

K.R. FLAMMER, D.A. MENDIS, V.D. SHAPIRO, and V.I. SHEVCHENKO / The Solar Wind Interaction with Comet P/Grigg-Skjellerup 31

P.M. PAPAELIAS / Annihilation of Antimatter Meteors 41

M.A. SHARAF / Expansion Theory for the Elliptic Motion of Arbitrary Eccentricity and Semi-Major Axis. XII. Time Transform and the Exact Forms of the Time in the Sectorial Regularized Theory 47

P.P. SAXENA and A. MISRA / Representative Abundances of a Few Positive Ions in the Innermost Coma of Comet Halley 59

A.A. DE ALMEIDA / Gas and Dust Release from Comet West (1976VI) Nuclear Fragments 69

Letter to the Editor

K.D. TREGO / Mars: Fretted Terrain as Eroded Ejecta from the Borealis Mega-Impact Origin for the Crustal Dichotomy 81

The Use of the "SPACEKAP" Style File for Delivering Manuscripts in LaTeX 85

Vol. 60 No. 2 February 1993

IOANNIS LIRITZIS and THEODOROS M. TSAPANOS / Probable Evidence for Periodicities in Global Seismic Energy Release 93

JOHN XANTHAKIS, CONSTANTINE POULAKOS, and CHRISTOS S. ZEREFOS / Stratospheric Ozone Variations in the Northern and the Southern Hemisphere during the Period 1957–1990 109

D. D. DIONYSIOU, E. N. SARRIS, P. G. TSIKOURAS, and G. A. PAPADOPOULOS / Newtonian and Post-Newtonian Tidal Theory: Variable G and Earthquakes 127

OSMAN M. KAMEL and ADEL S. SOLIMAN / The Construction of a Seventh-Order Jupiter-Saturn Analytical Theory *Part II: Extend Outline to* $O(m^7)$ 141

Letters to the Editor

A. P. TROFIMENKO / Registration of Minute Variations of the Gravitational Potentional First Derivative 177

KENT D. TREGO / Porosity of the Primal Regolith of Mars and Implications for the Origin of Runoff Channels and the State of the Paleoclimate 181

The Use of the "SPACEKAP" Style File for Delivering Manuscripts in LaTeX 183

Vol. 60 No. 3 March 1993

A.P. TROFIMENKO and V.S. GURIN / On Possible Small Black Holes Identification at the Earth Surface through Variation of Gravitational Field and γ-Background 191

G. KATSIARIS and C. DOUSKOS / Convective Flow from an Impulsively-Moving Heated Sphere 199

M.M. AHMAD and A. AHMAD / Jovian Magnetospheric Ion Cyclotron Instability in Presence of Parallel Electric Field 211

R.P. SINGH, LALMANI, and U.P. SINGH / Discrete Emissions and Whistler Precursors Recorded at Low Latitude Ground Station Gulmarg 225

M. HAMZAOGLU and E. HAMZAOGLU / Graphical Representation of Periodic Motion of the Line of Nodes of the Moon 233

N.S. AWADALLA and W.E. ALNASER / Solar Spectrum Distribution and Optical Depth of Bahrain's Sky 251

A. AHMAD, LALMANI, and M.M. AHMAD / Observations of Discrete Emissions at the Low Latitude Ground Station Gulmarg 265

J. KLAČKA and J. KAUFMANNOVÁ / Poynting–Robertson Effect and Small Eccentric Orbits 271

Letter to the Editor

O.M. KAMEL / A Second Note on Hori–Lie Perturbation Technique 275

The 'KLUWER' LaTeX Style File: Instructions for Authors 277
